Kigali, Rwanda

We're transforming Africa through innovative scientific training, technical advances and breakthrough discoveries!

The African Institute for Mathematical Sciences (AIMS) is a pan-African network of centres of excellence for postgraduate training in mathematical sciences, research and public engagement in STEM. Its mission is to enable Africa's brightest students to flourish as independent thinkers, problem solvers and innovators capable of propelling Africa's future scientific, educational and economic self-sufficiency. The first AIMS centre opened in Cape Town, South Africa in 2003; since 2011, AIMS has opened additional centres in Senegal, Ghana, Cameroon and Rwanda.

Each AIMS Centre provides expertly tailored academic and non-academic programs, training around 50 African students each year and preparing them for leadership in the domains of academia, government and industry. The AIMS academic program relies on top international lecturers who teach in a 24-hour learning environment.

If you bring a collaborative spirit with a passion to effect change, consider this opportunity as the...

Senior Gender Specialist (SGS)!

Based from the AIMS-NEI Secretariat, and reporting to the Chief Strategy and Partnership Officer the Senior Gender Specialist (SGS) you champion the portfolio by providing strategic direction, program and technical management, across the network, to enable the organization to meet desired objectives by contributing to the promotion and engagement of women in STEM-related educational and professional opportunities – ultimately to influence the impact of economic development in Africa and beyond.

As a career ambassador for all that Senior Gender Specialist stands for, you have a demonstrated track record of notable and meaningful impact having spearheaded the integration of practical and sustainable methodologies to successfully mainstream Gender initiatives across all levels of staff and across multiple geographical regions.

You recognize the value of creating and building collaborative relationships, both inside and outside of the organization, to foster and encourage a community-based spirit of engagement and accountability in shifting the collective mindset around gender-bias. You bring impeccable communications skills – both orally and in writing-- you are at ease representing and speaking in various forums, and your exposure and experience with multiple cultures positions you well to effectively manage contrary perspectives. In addition, you are an adept facilitator with an experienced yet innovative approach to build and grow capacity.

This is a full-time, open opportunity based at the Secretariat in Kigali, Rwanda.
